

# FINALLY. DERMATOLOGY CARE WITHOUT THE LONG WAIT.

With virtual dermatology\* through MDLIVE®, care is just a few clicks away.

When an employee needs to see a dermatologist, it's important that they receive that care and treatment promptly — especially if they're dealing with a rash, suspicious spot or other condition. But far too often, it can take weeks, even months, to get an in-person visit with a dermatologist.

**Introducing virtual dermatology through MDLIVE.®** Available in January 2022, this convenient new option makes it easy for your employees to connect to a board-certified dermatologist — all without the long wait. Best of all, access to virtual dermatology care is available to your employees and their eligible dependents as part of their health plan benefits.

## Convenient treatment for more than 3,000 skin, hair and nail conditions, including:

- Acne
- Rashes
- Eczema
- Psoriasis
- Dermatitis
- Suspicious spots
- Rosacea
- And more

Approximately **one in five** Americans will develop skin cancer in their lifetime.<sup>1</sup>

An estimated more than **14 million** people in the U.S. have rosacea.<sup>2</sup>

## Here's how virtual dermatology works:

Access MDLIVE by logging in to myCigna.com 24/7/365 and selecting virtual dermatology.

Describe your condition and upload pictures of the affected area. Submit your information any time, and from anywhere.

An MDLIVE board-certified dermatologist will respond with a diagnosis and treatment plan.\*

Prescriptions will be sent directly to your preferred local or home delivery pharmacy, if appropriate.

Have follow-up questions? Message the dermatologist for 30 days after the visit at no additional cost.

**Connecting with a dermatologist has never been more convenient for your employees. Virtual dermatology through MDLIVE is available for your employees when they need it.**

**Together, all the way.®**

\*Treatment plans will be completed within a maximum of 3 business days, but usually within 24 hours. Cigna provides access to virtual care through national telehealth providers as part of your plan. This service is separate from your health plan's network and may not be available in all areas. Available beginning January 2022, virtual dermatological visits through MDLIVE are completed via asynchronous messaging. Diagnoses requiring testing cannot be confirmed. Customers will be referred to seek in-person care.
